

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 14 April 2010 has been entered.
2. Claims 2-5 and 16-20 are now pending.

Allowable Subject Matter

3. Claims 2-5 and 16-20 are allowed.
4. The following is an examiner's statement of reasons for allowance: While cleaning ink-jet printing heads, broadly, is known, the closest prior art to the claimed process involving consecutive solutions passed through the passage, has been made of record. This reference, Katsuragi, teaches the use of thermal ejection to drive the solution through the passage and neither teaches nor suggests suctioning with a suction unit including a pump. While suctioning various liquids through ink-jet printing heads, broadly, is also known (see US 5,589,861 A; JP 2001-088326 A; and US 6,446,642 B1), the prior art neither teaches nor suggests replacing the thermal ejection of Katsuragi with such a pump.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
